Parking places: by request

Printing day : 22nd October
2026

Overview: The land does not have buildings and is planted with olive trees and carob trees, making it an excellent choice for both agricultural use, recreation and investment in a privileged environment. There is the possibility of extending the surface to 20,000 square meters, which would allow to meet the minimum requirements for the construction of a quarter of a hectare according to the current regulations.

A unique opportunity for those looking for a charming natural space near the city and with development potential, at a step of the city.

Features:

Mountain views, Resale
