Bathrooms: 4

M²: 430

Price: 1,450,000 €

Status: Sale

Property Type: Villa

Parking places: by request

Printing day : 23rd October 2026

Overview:Set in a wonderfully peaceful countryside setting just a short drive from La Cala de Mijas, this beautifully refurbished country villa is a true family home, offering an exceptional sense of space, privacy and tranquillity while remaining conveniently close to the coast, golf and local amenities.

The property is surrounded by open countryside and sits on an impressive 4,600m² plot, creating a wonderfully private and peaceful environment. La Cala de Mijas is approximately 10 minutes away by car, while the La Cala Golf driving range is just 1.5km from the house.

Built in 2003 and beautifully maintained and continuously updated over the years, the villa offers 430m² of built space and is presented in impeccable condition. It features five bedrooms, four bathrooms, including two en-suite, and two guest toilets.

At the heart of the home is a generous 50m² living room with an impressive 6.5-metre ceiling height. The combination of scale, natural light and open views gives this space a particularly welcoming feel, while still retaining the warmth and comfort of a home designed for family living.

The property has been thoughtfully updated, including new flooring throughout and a new kitchen installed in 2018, with further improvements to the flooring downstairs. There are two indoor kitchens, complemented by a separate outdoor kitchen, making the home equally suited to relaxed everyday living and long lunches and evenings with family and friends.

The villa also benefits from a garage and generous storage space. All windows are double glazed and fitted with electric aluminium blinds, while the property's water installation uses PEX piping throughout.

The infrastructure has been carefully upgraded in recent years. An 8kW solar panel system was installed in 2025, complemented by solar panels for hot water with a 700-litre system and a separate 200-litre supply for household consumption. The electrical system is three-phase with 6.6kW capacity and is prepared for an electric vehicle charger.

Outside, the extensive grounds offer plenty of space to enjoy the peaceful surroundings. The 36m³ saltwater swimming pool was completed in 2024 and forms a natural focal point for the outdoor areas.

The property also has its own private well, approximately 100 metres deep, providing up to 30,000 litres of water per day, alongside a 15,000-litre water deposit and a mains water connection.

A beautifully maintained and refurbished country home with an unmistakable sense of peace and privacy. With its generous grounds, excellent infrastructure and warm family feel, it offers the best of countryside living without sacrificing proximity to La Cala de Mijas, golf and the coast.

Features:

Air conditioning, Heating, Resale, Mountain views, Golf
