The minimalist architecture, with large windows and open terraces, blends naturally into the landscape. Independent pedestrian access and abundant natural light make every room feel bright in both winter and summer.

The bedrooms and lower garden face east, towards the morning sun. On the terrace, a linear fountain adds freshness and the soothing sound of water. The master bedroom has a dressing room and an en-suite bathroom, with views of the mountain, garden and pine forest from the bathtub. This level also houses the sauna and a multipurpose room or cinema room.

The villa is close to everything that makes Marbella special: beaches, Puerto Banús, international shopping and some of the finest golf courses on the Costa del Sol.
