■■■■■■■■:A 41 m² apartment in Puerto de la Torre that punches well above its size. The renovation is recent and thorough — wood-effect laminate flooring throughout, oak slat feature wall in the living area, brand-new bathroom, aluminium double-glazed windows.
The layout wastes nothing. Open living and work zone, separate kitchen with laundry, double bedroom with fitted wardrobe.
The real asset: a 15 m² private terrace.
Exclusive use, porcelain tile floor, ground-level LED spotlights, rooftop views over the neighbourhood. Room for a dining set or a weekend lounge-and-barbecue setup. At this size, having that outdoor space changes the equation entirely.
First floor, exterior facing, lift in the building. Two minutes on foot from the local high street, supermarket, pharmacy and bus line 21 — direct connection to Teatinos and Málaga city centre.
